JX-Cross-light-02

LED CROSS STAR LIGHT

Product Overview

JX-Cross-light-02 is a high-performance LED cross star light designed for architectural lighting and outdoor landscape illumination. It projects uniform and symmetrical cross beams in four directions, creating striking star-shaped lighting effects. With compact design, IP65 waterproof protection, and multiple beam angles and colors available, it is the perfect choice for building facades, bridges, and various outdoor applications.

Technical Specifications

Product Name	LED Cross Star Light
Model	JX-Cross-light-02A
Working Voltage	AC220V/DC24V
Power	24W
Size	120x120x65mm
Light Source	LED
Color Temperature	3000K/4000K/5000K/6000K/DMX512 RGBW/DMX512 RGB
Beam Angle	10°/15°/30°/60°/Beam
Working Temperature	-30°C~+60°C
Material	Aluminum Alloy
Protection Rating	IP65
Weight	0.5kg
On/Off	DMX512 (for RGBW/RGB)
Installation	Indoor/Outdoor
Application	Building Facade, Bridge, Landscape Lighting, etc.

Dimensions (mm)

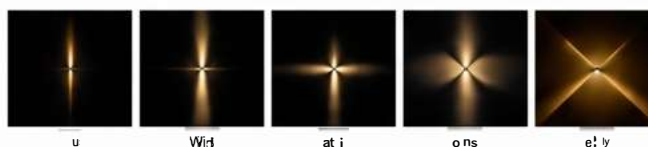

Beam Angle Available

Beam Angle	(Reference) 5°-30°-60°-120°
Beam Angle	5°-30°-60°-120°
Beam Angle	5°-30°-60°-120°

different lighting effects can be achieved by adjusting the beam angle.
